

A HYBRID conference allowing both online and in-person presentations

CALL FOR PAPERS

Dear colleagues and friends,

You are cordially invited to submit your research papers (English only and in PDF files) to the first Vietnam Symposium in Climate Transition (VSCT-2023) that will take place between 14-15 December 2023 in Da Nang, an incredibly beautiful coastal city located in the middle of Vietnam. We will organize the conference in a HYBRID FORMAT that allows either in-person or online presentations, so please do not hesitate to submit your work.

Overview

Climate change is a global threat requiring the cooperation of all stakeholders, including governments, corporations, and civil society, to mitigate its harmful impacts and to ensure a just climate transition to a low-carbon, more resource-efficient and sustainable economy. Under the Paris Agreement and the 2030 UN Sustainable Development Goals (SDGs), countries are expected to mobilize all possible efforts and resources (human, financial, and capital) to achieve targeted climate and energy goals.

Jointly co-organized by the Association of Vietnamese Scientists and Experts (AVSE Global), the University of Danang – University of Economics, and Massey University, the 2023 Vietnam Symposium in Climate Transition (VSCT-2023) aims to provide a leading forum for academics, practitioners, and policymakers to present their research findings and discuss current and challenging issues in climate transition, environment, and energy change mitigation and adaptation. The Symposium is also an ideal occasion for Vietnamese scholars to exchange research experiences and develop research projects with their international colleagues.

Topics

The scientific and organizing committee welcome submissions in all areas which represent crossroads of energy, environmental, and climate finance. The topics of the conference include, but not limited to:

- Climate change: mitigation and adaptation
- Climate change: policy and regulations
- Behavioral finance/economics and its implications to climate transition
- Climate finance
- Climate risks: assessment and management
- Climate transition and COVID-19 recovery
- Climate transition and portfolio management
- Energy and environmental issues
- Energy markets and energy transition
- Financial markets and climate transition
- Geopolitical risk and climate change mitigation
- Just climate transition
- Low carbon technologies and innovation
- Management of extractive industries
- Sustainable infrastructure investment

Keynote Speakers

- Professor Charles Mason, H.A. "Dave" True, Jr. Chair; Professor of Economics, University of Wyoming, United States
- Professor Perry Sadorsky, Professor of Sustainability and Economics, Schulich School of Business, York University, Canada & Co-Editor of Energy Economics

Scientific Committee

- Jonathan Batten, RMIT University, Australia
- Sabri Boubaker, EM Normandie Business School, France & Swansea University, UK
- Julien Chevallier, Paris 8 University, France
- Long Chu, Australian National University, Australia
- Hisham Farag, Birmingham Business School, UK
- Arman Eshraghi, Cardiff University, UK
- Jerzy A. Filar, *University of Queensland, Australia (TBC)*
- Stephane Goutte, Paris Saclay University, France
- Alessandra Guariglia, University of Birmingham, UK
- Lutz Kilian, Federal Reserve Bank of Dallas, USA
- Tom Kompass, University of Melbourne, Australia
- Qiang Ji, Chinese Academy of Sciences Institutes of Science and Development, China
- Brian Lucey, University of Dublin Trinity College, Ireland
- Ted Loch-Temzelides, Rice University, USA
- Duc Khuong Nguyen, IPAG Business School, France

- Toan Phan, Federal Reserve Bank of Richmond, USA
- Perry Sadorsky, York University, Canada
- Russell Smyth, Monash Business School, Australia
- Stefan Trueck, Macquarie University, Australia
- Dayong Zhang, Southwestern University of Finance and Economics, China

Advisors

- <u>Ted Loch-Temzelides</u>, Rice University, USA
- Lutz Kilian, Federal Reserve Bank of Dallas, USA
- <u>Duc Khuong Nguyen</u>, EMLV Business School, France & AVSE Global

Co-chairs

- Hung Do, Massey University, New Zealand
- Muhammad Ali Nasir, University of Leeds, UK
- Linh Pham, Lake Forest College, USA

Paper submission

Authors are invited to submit their papers in PDF files, no later than 29th October 2023 via the conference website: https://vsct2023.sciencesconf.org/

Submitted manuscripts will be peer-reviewed. No submission fee is required. General inquiries regarding the call for papers should be directed to any of conference chairs.

Important Dates

- Submission deadline: 29th October 2023
- Notification of review results: As soon as the decision is made
- Registration deadline: 05th November 2023
- Conference event: 14-15th December 2023

Publication Opportunities

Special issue of <u>International Review of Economics and Finance</u>, titled "Climate Governance, Green Innovation, and Investment Policies" under the Guest-editorship of Prof. Sabri Boubaker, Assoc. Prof. Hung Do, Dr. Linh Pham, and Dr. Vu Trinh. See <u>Call for papers</u> for more details.

Special issue of <u>Environmental Economics and Policy Studies</u>, titled "Green Finance, responsible investments, and ethics in the era of post-COVID-19 and Russian-Ukrainian conflict" under the Guest-editorship of Professor Younes Ben Zaied and Dr Nidhaledine Ben Cheikh. See <u>Call for papers</u> for more details.

Special issue of <u>Sustainability Science</u>, titled "Natural capital accounting for sustainable cities" under the Guest-editorship of Prof. Shunsuke Managi, Dr. Moinul Islam, Prof. Dayong Zhang, Prof. Younes Ben Zaied, and Dr. Osamu Saito. See <u>Call for papers</u> for more details.

Special issue of <u>Economics of Energy & Environmental Policy</u>, titled "Energy Transition & Decarbonization: Optimal Coordination between Energy & Environmental Policy" under the Guest-editorship of Prof. Duc Khuong Nguyen and Assoc. Prof. Muhammad Ali Nasir. See <u>Call for Papers</u> for more details.

Special issue of <u>Journal of Cleaner Production</u>, titled "Natural capital accounting for sustainable society: Do natural resources matter?" under the Guest-editorship of Prof. Younes Ben Zaied and Prof. Shunsuke Managi. See <u>Call for Papers</u> for more details.

In consultation with the Editors-in-Chief of the <u>Journal of Climate Finance</u> and <u>Journal of Environment</u> <u>Management</u>, authors of best conference papers will be invited to submit their papers to a regular issue of the Journal.
